TECHNICAL DATA

FABRIC

The cover is made of PVC mesh fabric, available in translucent or blackout options and in various colors. All types of fabric come with a warranty and a fireproof certification.

100% MADE IN ITALY

Entirely manufactured in our Italian facility.

CERTIFICATION

Product marked according to the technical standard UNI EN 1090.

ALUMINUM PROFILES

Aluminum profiles and steel components treated with cataphoresis or hot-dip galvanizing, and polyester powder coating.

COATING

The thermosetting polyester powder coating increases wear resistance over time. The warm color range and matt finish give the product a welcoming appearance, in harmony with outdoor spaces and nature.

Standard Colors, Matt Finish:

White, rough matt finish

- Dove grey, rough matt finish
- Dark brown, rough matt finish
- Marbled grey, smooth finish

Other colors from the RAL range with smooth, matt, or glossy finishes are available upon request.
